

Part # MM-5000-K \$910.00 Sale \$710.00

Kawasaki H2 – Matrix Slider Clutch:

This is a centrifugal type clutch which allows you to set the stall speed and add the necessary weight required to lockup the clutch pack. Stall speed is set with the 5 springs and lockup is set by adding weight to the 5 lever arms.

Cores are required when ordering this Slider Clutch:

- OEM # 13095-029 Clutch Housing w/ Ring Gear
We need to remove the OEM clutch ring gear and rivet it to the slider basket.
- OEM # 13087-027 Clutch Inner Hub
We need to modify the OEM clutch hub for use with the slider.

All replacement Slider Clutch parts are available separately. Ask for a parts quote.

Optional Billet Clutch Covers: (see “Billet Clutch Covers” page)

Optional Slider Parts: (see “Slider Clutch Parts” page)

Shipping cost is not included in the 2010 price above.

Payment made by PayPal or U.S. Money Order.
